

Sandstone is a clastic sedimentary rock composed mainly of sand-sized and silicate grains. Comprising mostly of quartz sand, it can also contain amounts of feldspar and sometimes silt and clay.

Arizona Sandstone Cobblestones are characterised by a blend of rusty desert tones and light ivories.

This cobblestone is an artisan crafted stone with split edges to achieve an organic and textural aesthetic.

NOTE: Shade/batch variation is an inherent characteristic of all natural products. The colour of the material supplied may vary to samples/images provided.

FORMATS

Cobblestones:
90 x 90 x 20mm (+2mm)
400 x 400 x 20mm sheet size
Custom sizes available

APPLICATIONS

Interior Walls	Yes
Exterior Walls	Yes
Interior Floors	Yes
Exterior Floors	Yes
Splash Areas i.e. shower walls and splashbacks	-
Wet Areas i.e. shower floors, baths and pools	-
Countertop	-

INSTALLATION + CARE

Sealing may be required. We recommend Chemforce Stain Protector™.

For routine cleaning of internal natural stone surfaces we recommend Chemforce 5+5™ Enzyme Cleaner Concentrate.

For routine cleaning of external natural stone surfaces we recommend Chemforce Oxytec-M™ Oxygen Cleaner.

NOTE: Detailed technical data, installation and cleaning guides are available upon request.
